University of Puerto Rico Disclosure of Investigator's Significant Financial Interest FORM 1.A

The evaluation of these forms by the Financial Conflict of Interest (FCOI) institutional officer will determine if you have a financial conflict of interest that may bias the result of your scientific research funded by the United States Public Health Service and to establish any pertinent actions to mitigate or eliminate the effect of such conflict in the results of the research.

A financial conflict of interest exists when the institution, through its designated official, reasonably determines that an Investigator's significant financial interest is related to a PHS funded research project and could directly and significantly affect the design, conduct or reporting of the funded research. Institution means any domestic or foreign, public or private, entity or organization (excluding a Federal agency) that is applying for or that receives a PHS research funding. Investigator means the project director or principal Investigator and any other person, regardless of title or position, who is responsible for the design, conduct, or reporting of research funded by the PHS, or proposed for such funding, which may include, for example, collaborators or consultants. Entity means any domestic or foreign, public or private, organization (excluding a Federal agency) from which an Investigator (and spouse and dependent children) receives remuneration or in which any person has an ownership or equity interest.

The term *significant financial interest* does not include the following types of financial interests: salary, royalties, or other remuneration paid by the Institution to the Investigator if the Investigator is currently employed or otherwise appointed by the Institution, including intellectual property rights assigned to the Institution and agreements to share in royalties related to such rights; any ownership interest in the Institution held by the Investigator, if the Institution is a commercial or for-profit organization; income from investment vehicles, such as mutual funds and retirement accounts, as long as the Investigator does not directly control the investment decisions made in these vehicles; income from seminars, lectures, or teaching engagements sponsored by a Federal, state, or local government agency, an Institution of higher education as defined at 20 U.S.C. 1001(a), an academic teaching hospital, a medical center, or a research institute that is affiliated with an Institution of higher education, a medical center, or a research institute that is affiliated with an Institution of higher education.

This disclosure is applicable to each Institution that is applying for, or that receives, PHS research funding by means of a grant or cooperative agreement and each Investigator who is planning to participate in, or is participating in, such research. However, this does not apply to SBIR Program Phase I applications.

I agree to abide by the University of Puerto Rico's Policy and Guidelines on Financial Conflict of Interest. I certify that the above information is true to the best of my knowledge and that is has been submitted as required by law, regulation, contract, and by 42 CFR Part 50 Subpart F. I understand and agree that if there is any change in my financial status, I must submit a new disclosure and attachment within 30 days of that change.
