I. INSTITUTIONAL OVERVIEW

The University of Puerto Rico at Humacao (UPRH), founded in 1962, is an undergraduate public institution classified as a Bachelor/Diverse: Baccalaureate Colleges-Diverse Fields by the Carnegie Foundation for the Advancement of Teaching. UPRH is one of eleven units which comprise the University of Puerto Rico (UPR) State system. It is located in the Eastern region of the island, about 30 miles east from Puerto Rico's capital of San Juan. Eighty-eight (88%) percent of the total enrollment comes from 16 adjacent municipalities which constitute the Institution's target area –one of the most impoverished areas in Puerto Rico, according to the 2010 Federal Census. UPRH is the only UPR campus with a presence in the eastern region of PR. In 2018, UPRH provided service to 17% of the island's population that extends beyond our target area, including the municipalities of Vieques and Culebra. Forty-eight percent of our students are below the poverty line that results in UPRH being a vital component in the economic and social development of the eastern region. Seventy-three percent of new student enrollments are graduates of public schools, which demonstrates the need for a public institution of higher education for students to continue their studies.

Map of Puerto Rico

On October 3, 2019, the UPRH Administrative Board (AB) approved to extend the UPRH 2013-2014 to 2017- 2018 Strategic Development Plan (SDP) until 2021-2022, the end of the system year to which it is adjusted through Certification (C) 2019-2020-047.

Mission

The University of Puerto Rico at Humacao, as the leading higher education institution in the eastern area of Puerto Rico: Establishes students as the center of university activity; therefore, the university's efforts are directed toward teaching, research, and services that foster ethical, cultural, aesthetic, humanistic, technological, and student intellectual development; furthermore, the university contributes to the formation of citizens that are instilled with knowledge and values that serve to strengthen participatory democracy, ecological sustainability, justice, and equity in the eastern region, Puerto Rico, and the Caribbean.

Institutional goals

- Goal A** Enhance student success by means of an excellent general and professional education
- Goal B** Improve quality of life within the service areas of the UPRH through educational programs, services, and community projects that promote socioeconomic development
- Goal C** Promote, preserve, and disseminate the values and characteristics of Puerto Rican culture and enrich Puerto Rican culture through regional, national, and international exchange
- Goal D** Promote an institutional climate in which the university community can share and discuss ideas of mutual interest in a secure and respectful environment, in order to bring about necessary changes that are consistent with internal and external reality
- Goal E** Revitalize research through a participatory role by constituents that are involved in emerging paradigms based on competitiveness in the natural, administrative, and human sciences in ways that contribute to the advancement of knowledge and to the solution of problems of the eastern region, Puerto Rico, Caribbean, and beyond

UPRH offers a total of 24 academic programs of which 20 lead to bachelor's degrees, and the remaining 4 lead to associate degrees. Also, there are 12 articulated transfer programs which allow students to move to other academic programs at one of four other units of the UPR system. Among the 24 academic programs, six (6) are unique in Puerto Rico: Wildlife Management, Coastal Marine Life (Biology), Physics Applied to Electronics, Computational Mathematics, Social Sciences with Social Action Research, and Studies of Puerto Rico and the Caribbean. Moreover, three programs are unique in the UPR system: International Commerce, Industrial Chemistry, and Occupational Therapy. In addition, the Continuing Education and Professional Studies Division (Decep by its Spanish acronym) offers articulation programs within the university system, short courses, grade-credit programs, and professional certifications.

The UPRH is part of the University of Puerto Rico (UPR) System, a multi-campus, state-supported institution of higher education licensed by the Puerto Rico Education Council

(Certification CEPR 2018-4641) and has been accredited by the Middle States Commission on Higher Education (MSCHE) since 1965. The UPR system has a governing board composed of 14 members that include faculty, students, community members, UPR President, and a representative of the Financial Advisory Authority and Fiscal Agency, created as part of the government debt restructuring and economic development process mandated by the Puerto Rico Oversight, Management, and Economic Stability Act (PROMESA) in 2016.

With the approval of PROMESA in 2016, the island entered a challenging debt restructuring and economic development process. As a direct consequence, UPR, as a state-supported higher education system, has undergone a reduction in state funding. In order for the 11 UPR campuses to achieve financial sustainability, the 11 campuses must actively secure additional funding. The UPRH is proactively addressing innovation and sustainability based on this situation.

The UPRH overcame its Show Cause status on June 27, 2019 with reaffirmation of its accreditation status. Obtaining reaffirmation of accreditation strengthened our overall institutional processes and procedures. This has set the stage for entering into the Self-Study process with rigor and commitment toward evidencing continuous improvement.

Statistical Profile

The UPRH 2019-2020 first semester total fall enrollment was 3,218 students of which 3,153 (98 %) were registered in the Institution's regular programs. Out of the total number of students enrolled in regular programs, 45 % belong to natural sciences programs, 30% to business administration programs, and 22% in arts programs. Three (3%) percent were registered in the articulated programs. Sixty-four (64%) percent of students enrolled in regular programs were females and 36% males. With regards to new admissions, 89% comes from the Institution's target area. Seventy-five (75%) percent come from the public school system. Two hundred and sixty-four students (8.2%) are students with special needs, and 25 % of new admissions are first-generation.

During the first semester of the 2019-2020 academic year, UPRH had 282 faculty members of which 55% are females. Fifty-six (56%) percent of faculty members have doctoral degrees. Thirty-five (35%) percent of faculty are full professors, 15% are associate professors, 22% are assistant professors, and 77 % are instructors. Out of the 282 faculty personnel, 188 are full-time regular employees and 81 are part-time non-permanent employees. There are another 304 nonteaching employees working in the Institution (219 regular employees and 85 non-permanent employees).

The UPRH conferred 586 academic degrees in 2019: 526 Baccalaureate and 60 Associate Degrees. In the same academic year, the Institution disbursed a total of \$16,035,958 in federal and state financial aid to 79% of enrolled students, a percentage that has remained in recent years. Retention and graduation rates have also remained constant. In 2019-2020, UPRH financed its operations with an adjusted budget of \$36,478,991.

II. INSTITUTIONAL PRIORITIES TO BE ADDRESSED IN THE SELF-STUDY

UPRH has identified three institutional priorities that align with the Requirements of Affiliation and Standards for Accreditation. This was an interesting task in light of the variety of topics on our seemingly endless wish list.

First, motivated administrators and staff met in small groups on multiple occasions to brainstorm what each believed would make our institution the university of their dreams. Then the groups took these ideas and analyzed them from four optics: our mission, current Strategic Plan, Operating Plan of the Chancellor, and UPR System Strategic Plan.

Second, we discussed that our institutional priorities had to be closely aligned with our Strategic Plan that would be ending in 2022. The activities we would be engaging in for the Self-Study process would be assessed in a way that would inform the goals that would be the framework for designing our future Strategic Plan.

Lastly, the institutional priorities needed to be framed within a context of our current reality. The Institution is facing financial issues that need to be continuously addressed. We are conscious that the best way to ensure continuous sources of funding was to have control of these sources. We also recognized our institution is in continuous competition for new students within the borders of a relatively small island market. These students will most likely be more socially conscious and sympathetic toward being productive and constructive members of their community.

The three institutional priorities that best addressed leading us toward a relevant, attainable future are:

1. **Innovation:** Planning for a technological future and integrated globalization
 - a. Developing Distance Education Programs
 - b. Developing Graduate Programs
 - c. Creating Microbusiness Ventures

We recognize that a robust venture toward using technology as a primary means of communication is a commonsense approach toward effectively delivering our mission and aspirations to our students and constituents. We have created a Distance Education Office that at this moment is offering general education and professional concentration courses in hybrid and online formats. Our goal is the development of fully online B.A. and M.A. programs. Therefore, our move toward developing graduate degree programs is a natural segue into enhancing our use of technology that will enable us to reach a world-wide population. Also, the concept of globalization extends toward creating microbusiness ventures that will awaken the entrepreneurial spirit in our students and constituents in which we are seen as an integral part of community life.

2. **Sustainability:** Striving toward maintaining economic and academic institutional autonomy as we progress into the future
 - a. Restructuring Administrative Offices and Academic Programs

- b. Diversifying Financial Base
- c. Enhancing Infrastructure

Economic and academic institutional autonomy is one of our priorities within the UPR central university system in which we are one of 11 campuses. We are fully committed to begin restructuring at all levels, both within administrative offices and academic programs, in order to embrace a culture of right sizing that will lead to greater efficacy in use of our physical, human, and fiscal resources. Autonomy entails that we diversify our financial base in terms of obtaining funds that go beyond central administration's allotment that we receive every year. This allotment has been decreasing every year, at a time when our institution is in the process of enhancing its academic offerings, hence the need for financial diversification. A stronger financial base will also increase the likelihood that we will be able to enhance our physical facilities and infrastructure to meet the growing needs of our academic programs and service offices.

- 3. **Service:** Benefitting our community in a way that is ethically responsible and meaningful
 - a. Involving Students in Community Outreach Activities
 - b. Preparing Students to meet the Professional Needs of their Community
 - c. Involving community leaders, alumni, and other constituents

Total involvement with our community and Puerto Rico at large has always, and will continue to be, at the heart of our mission and strategic planning. Most of our students are not only required, but also encouraged, to give back to the community which supports them and champions their endeavors. This involvement means that we recognize that our students need to prepare themselves to be consummate professionals in their chosen fields in order to meet the needs of the community in which they live. We also recognize the importance of having community leaders, alumni, and other constituents directly give us input and ideas through an advisory board that will give us invaluable feedback on shaping our future for the benefit of both our institution and the community we serve.

Our three priorities focused on Innovation, Sustainability, and Service are aligned with the UPR 2017-2022 Strategic Plan, the UPRH 2013-2018 (extended to 2022) Strategic Plan, the UPRH Mission, and Chancellor Aida Rodríguez Roig's commitment to UPRH and the surrounding community.

Innovation, Sustainability, and Service are not conceptualized as three separate priorities. The three priorities are conceptualized as interlocking and inseparable, in which each priority is inextricably linked to each other to create one whole concept. Our singular priority then becomes fomenting the idea that UPRH is forward-thinking, economically viable, and valuable to the community we serve.

III. INTENDED OUTCOMES OF THE SELF-STUDY

The intended outcomes of the Self-Study are the following:

1. Evidence how UPRH meets each of the 15 requirements of affiliation and seven MSCHE standards
2. Create buy-in by proactively moving from accreditation as an academic process to reactivating a culture of on-going assessment at the institutional level
3. Strengthen the goals and objectives of the academic departments and service programs
4. Generate the idea that UPRH is forward-thinking, economically viable, and valuable to the community it serves
5. Address areas that have opportunities for improvement to enhance the decision-making process
6. Update policies and procedures where necessary
7. Analyze how the alignment of strategic planning with human, physical, and fiscal resources contribute to the institution's mission
8. Provide data and information that will contribute to the design and implementation of the institution's 2022 Strategic Plan
9. Contribute to institution's continuous improvement initiatives
10. Contribute to the future health and well-being of the institution

The ten intended outcomes are directly aligned to institutional planning and renewal. They are useful, meaningful, and ambitiously attainable. The intended outcomes will guide the work of the Steering Committee and Working Groups by forming the base for outlining the charges that will contribute to meeting these outcomes.

IV. SELF-STUDY APPROACH

Identify one of the following self-study approaches to be used to organize the Self-Study Report:

- Standards-Based Approach
- Priorities-Based Approach

UPRH will use a standards-based approach to evidence the alignment between institution's mission and the MSCHE requirements of affiliation and standards. Our three priorities: Innovation, Sustainability, and Service, will permeate the requirements of affiliation and standards. Our academic departments and service programs are familiar with using a standards-based approach in their external accreditations and decision-making processes. A standards-based approach will help to facilitate the documenting of evidence for our Self-Study.

The Steering Committee and Working Groups are charged with using a standards-based approach in the self-study process. The members are:

Steering Committee: Responsibilities

The Steering Committee provides leadership for the Self-Study process. The responsibilities of the Steering Committee include:

1. Identifying the key issues of developing a Self-Study
2. Developing the Self-Study Design
3. Forming and developing charges of the Working Groups
4. Developing a timetable and overseeing its completion
5. Supervising the completion of the final Self-Study Report
6. Informing the deliberative bodies of the institution to obtain their response and approval of the Self-Study
7. Coordinating arrangements for the Team Chair and Evaluation Team visits
8. Collaborate with the Chancellor on the Institutional Response Report

Additional responsibilities include:

1. Maintaining communication with stakeholders

2. Sustaining enthusiasm during the self-study process
3. Providing templates, documents, and evidence to Working Groups
4. Scheduling professional development for Working Groups
5. Acting as an intermediary among Working Groups

Steering Committee Collaboration with Working Groups

The Steering Committee members are proactively collaborating with each of the Working Groups by being a member of two standards:

- Dr. Nilsa Lugo Colón: Standard III; Standard IV
- Dr. Aníbal Muñoz: Standard VI; Chairperson of Standard VII
- Dr. Mildred Cuadrado Cuadrado: Chairperson of Standard I; Standard V
- Prof. Ivette Irizarry Santiago: Standard I; Standard II

This framework will strengthen the evidence-gathering and decision-making that is part of the Self-Study process by creating a stronger, more effective collaborative structure.

Working Groups: General Charges

The Steering Committee identified seven general charges for the Working Groups:

1. Reading and reviewing resources provided by MSCHE, UPR Vice-presidents Office for Academic Affairs, and Steering Committee
2. Identifying relevant policies, procedures, and structures relevant to assessing each standard to be used as an Evidence Inventory
3. Analyzing relevant documents and processes to assess how each corresponds to verifying that standards are met
4. Demonstrating periodic assessment of policies, evidences, and processes inherent in each standard
5. Crafting opportunities for improvement based on findings and analysis
6. Citing at least three lines of inquiry that will compose the specific charges each group will use for evidencing a standard is met
7. Identifying gaps in the Institution's processes and documentation to meet standards
8. Recommending best-practices on how gaps can be resolved using short, medium, and long term strategies

A brief discussion about how relevant assessment information that will be gathered, reviewed, summarized, and used by the Working Groups to accomplish its work.

Working Groups will engage in gathering data by reviewing documents, protocols, and processes. The evidence will be analyzed and aligned with the Institution's mission, institutional goals, and institutional priorities. Furthermore, the alignment with the key elements and specific criteria of the corresponding standards will be analyzed. The

Working Groups will verify if the evidence clearly identifies that a standard has been met, and recommend how gaps in the evidence can be resolved.

Strategies for how the Working Groups will interact with one another in the interest of engaging in common areas of inquiry and reducing undue duplication of effort.

- Hold periodic meetings (monthly)
- Review the interrelationship of all standards to identify overlaps
- Maintain constant communication with the Steering Committee
- Share the evidence of meeting standard with other Working Groups for continuous feedback and cross-referencing

VI. GUIDELINES FOR REPORTING

The Steering Committee will engage in the following reporting activities to ensure that the self-study process progresses toward meeting the dates in the Self-Study timetable:

1. Create deadlines for Working Groups to submit the documents and reports on a timely basis
 - a. Working Groups will have the opportunity to present on-going activities, findings, and analysis of data that will lead toward the draft of preliminary reports and publication of the final Self-Study Report.
 - b. Stakeholders will be continuously informed of the progress of the Self-Study Report to ensure that their feedback and recommendations are taken into consideration.
2. Design templates for Working Groups to prepare their reports
 - a. Working Groups will be given templates for preparing their interim and final reports.
 - b. Templates will be revised when necessary to adapt to the findings and data analysis of each standard

VII. ORGANIZATION OF THE FINAL SELF-STUDY REPORT

The Steering Committee is responsible for the organization of the Self-Study Report. This includes coordinating the Self-Study Design, initial and secondary drafts, and the final report that will be submitted to MSCHE.

The Self-Study will be structured as follows:

- Cover Page
- Table of Content

- List of Figures and Tables
- Names of Members of Steering Committee and Working Groups
- Executive Summary – brief description of the major findings and opportunities for improvement
- Introductions – brief history and description of the institution that includes student population, institutional priorities, Self-Study approach, and how chapters are organized
- Chapters for Each Standard that include Alignment with Priorities – chapters will include:
 - Heading
 - Assessment data that evidence standard is met
 - Analysis of data that is consistent with questions used in gathering evidence
 - Cross-references that align with other chapters and evidence inventory
 - Reflection on how assessment data has led to data-driven decisions
 - Conclusion that includes strengths, areas for improvement
 - Opportunities for continuous improvement with suggested strategies for implementation
- List of Acronyms
- Glossary of Terms
- Appendices

VIII. VERIFICATION OF COMPLIANCE STRATEGY

The UPRH SSD provides a description of several strategies in order to ensure a productively completion of a Verification of Compliance (VOC) process. These include:

1. Identification of Institutional key personnel/office responsible for assisting in providing relevant information to the Steering Committee member (table 1)
2. Preparation of a table to illustrate VOC areas and people/office responsible
3. Research and request of key documentation / regulations required for VOC completion
4. Examination, analysis, and cross-reference of documentation submitted by key personnel
5. Continuous communication and Feedback between Steering Committee member and Institutional key personnel
