

UNIVERSITY OF PUERTO RICO AT HUMACAO
University Development Office/Student Learning Assessment
Chemistry Department/Organic Chemistry
(CHEM 3031, 3032, 3033, 3034)

Dr. Tania Malavé, Chair

Dr. Gabriel Barletta, Course Coordinator and Dr. Mirna Rivera, Assessment Coordinator

August 2016-May 2021

UPR- Humacao Goals:

Goal A: Enhance student success by means of an excellent general and professional education

Goal B: Improve quality of life within the service areas of the UPRH through educational programs, services, and community projects that promote socioeconomic development

Actions:

1. Keep mentoring workshops in independent studies (TADDEI)
2. Design new instruments to evaluate the laboratories practices
3. Change sequences in laboratories exercise to match concepts discussions with ongoing basis monitoring
4. Report TADDEI results

Organic Chemistry- Course Objectives:

Provide students with a level of competency in Chemistry which will allow them to work in industries, government or private laboratories, academia or continue graduate studies in Chemistry or related areas

Assessment Results:

1. Evidence of academic success in students that participate in Mentoring for the Development of Skills in Independent Studies (TADDEI)
2. Need for new instruments in laboratories activities
3. Sequence in laboratories activities may not necessarily match course content sequence

Assessment tool:

- Coordinated tests
- Students performance in Mentoring for the Development of Skills in Independent Studies (TADDEI-TADQ 3031,3032)
