## EXECUTIVE SUMMARY

The Bachelor's Degree in Office Systems of the University of Puerto Rico in Ponce (UPR-Ponce), established in 1982 as a Bachelor in Secretarial Sciences, is a business-related program. Its curriculum was revised in 1994 and approved by the Board of Trustees of the University of Puerto Rico through Certification 107-1994-95, as amended. As a result of the curriculum revision, the name of the program was changed to Bachelor in Office Systems in 1995. The curriculum has focused in the development of highly-qualified administrative assistants, skilled in technology and procedures for the office administration, as required by the business community. The Program responds to the UPR-Ponce mission and goals; its primary purpose is to satisfy the needs of stakeholders such as employers and students of the southern region of Puerto Rico. The Program is continuously updated in response to the changing business environment and job market. The OSP considers also the recommendations of the OSP Advisory Board members for program improvement. The Office Systems Program was revised in 2010 in terms of the curricular content and the approved revision was implemented in August 2012. A year later, the sequence was assessed regarding the order in which courses have been offered; the changes approved were implemented in August 2014.

The Office Systems Program (OSP) Faculty is a highly qualified one; it is based on its valuable teaching and business professional experience. The OSP Faculty is constituted by eight professors: seven full time and one part time. Four professors hold a doctorate degree and four a master degree. They recognize the importance of continuous participation in professional development activities, which update their knowledge and skills to enrich the teaching and learning processes. This enables the integration of new education delivery technologies and teaching strategies. Their commitment is also evidenced through their leadership in the design of a curriculum that satisfies its constituents' needs and expectations. The Faculty has also demonstrated its leadership by holding different administrative positions in the UPR-Ponce and in the institution's governing bodies.

In the process of teaching students enrolled in the Program, the OSP Faculty is engaged with the achievement of the learning outcome expectations. The Program fosters the knowledge acquisition as well as attitudes and skills development necessary to perform effectively as office professionals. This is attained through the curriculum integration of business content areas as information systems, office procedures, office administration, accounting, finance, marketing, business law, globalization, policies, economics, statistics, and interpersonal relations. The curriculum also integrates general education areas such as: communication, ethics, civic values, teamwork, critical thinking, and decision-making and problem-solving skills. The OSP promotes students' social responsibility through their participation in community service projects. The curriculum provides the senior students an internship course as the comprehensive experience in a real work environment.

The quality of the OSP has been evidenced through the satisfaction of stakeholders, including students, employers, alumni, and internship supervisors. The professional accreditation of the Office Systems Program by ACBSP in May 2010 and the acceptance of the Quality Assurance Reports submitted in February 2012, September 2014, and September 2016 have confirmed its excellence. NOTE: This Report Covers Years: 2016-2019 (Data for 2013-2014, 2014-2015, 2015-2016, 2016-2017, 2017-2018, and 2018-2019 was included as evidence for some of the standards to comply with the requirement of trends for 3-5 years).

O 8. Conditions or Notes to be Addressed: You do not need to address Opportunity for Improvement (OFI).

Please explain and provide the necessary documentation/evidence for addressing each condition or note since your last report.

Are you requesting the Board of Commissioners to remove notes or conditions? (If the justification for removal is lengthy, consider attaching an appendix to QA report).

Remove Condition: Overview 09: The business unit must routinely provide reliable information to the public on their performance, including student achievement.

The condition stated by ACBSP after the OSP Quality Assurance Report submitted in September 2014 was removed as a result of the evidence provided in the OSP Quality Assurance Report submitted by September 2016. The decision was notified through e-mail by ACBSP on February 2017. Actually, there is no condition or notes to be removed.

The new UPR Ponce Web Page was published recently. As a result, the access to the OSP information changed as follows:

Access to the documents in the UPR Ponce Web Page through: [UPR Ponce Web Page](#), *Academia* option, *Departamentos Academicos* option, and *Sistemas de Oficina* option.

The Web Page provides information related with the Program (Mission, Vision, Values, Goals, Objectives, Curricular Sequence, Alumni Profile), Faculty, Student Learning Assessment, Program Assessment, Advisory Board, Accreditation, and Office Systems Student Association, among others.

O 9. The business unit must routinely provide reliable information to the public on their performance, including student achievement such as assessment results.

Item III in the QA report applies to Overview Item 5g in the Baccalaureate/Graduate Degree Standards and Criteria book.

Accredited business programs must routinely provide reliable information to the public on their performance, including student achievement. A direct link to aggregate business student results should be placed on your business page website. The following items must be available to the public for accreditation.

1. Provide evidence on the main business page website, or on business program websites, that demonstrate accredited programs provide information to the public on business student achievement. For example, evidence of business student achievement may include aggregate data by accredited programs regarding some of the following business student achievement measures:

- Attrition and retention
- Graduation
- Licensure pass rates
- Job placement rates (as appropriate)
- Employment advancement (as appropriate)
- Acceptance into graduate programs
- Successful transfer of credit
- Other

Note: Website links submitted to document the implementation of this requirement must be on the business-landing page, clearly identified, and lead directly to information regarding business student achievement. Provide the link in Section III of the online reporting portal.

As shown in Table O-1, using various mechanisms, the OSP provides reliable information and makes data accessible to the stakeholders as students, alumni, administrators, faculty, and non-faculty personnel.

### Standard #3 Student and Stakeholder Focus Results

## Standard Three: Student- and Stakeholder-Focused Results - Criterion 3.8

Use this format to respond to Criterion 3.8. If you are submitting a self-study for reaffirmation, this is the same table used in your QA report.

Student- and stakeholder-focused results examine how well your organization satisfies students and stakeholders key needs and expectations.

*Performance measures may include: satisfaction and dissatisfaction of current and past students and key stakeholders, perceived value, loyalty, persistence, or other aspects of relationship building, end of course surveys, alumni surveys, Internship feedback, etc.*

*Measurement instrument or processes may include end of course surveys, alumni surveys, Internship feedback, etc.*

Each academic unit must demonstrate linkages to business practitioners and organizations, which are current and significant, including an advisory board.

Periodic surveys should be made of graduates, transfer institutions, and/or employers of graduates to obtain data on the success of business programs in preparing students to compete successfully for entry-level positions.

Performance Measure: What is your goal? The goal should be measurable.	What is your measurement instrument or process? (indicate length of cycle)	Current Results: What are your current results?	Analysis of Results: What did you learn from your results?	Action Taken or Improvement made: What did you improve or what is your next step?	Provide a graph or table of resulting trends (3-5 data points preferred)	Data Point 1 (year or semester)	Data Point 2 (year or semester)	Data Point 3 (year or semester)

Eighty percent (80%) of alumni supervisors will assess as excellent or good the academic preparation received at OSP	Alumni Supervisors Survey 2008-2009, 2013-2014, and 2018-2019	During 2008-2009, 2013-2014, and 2018-2019, 92% or more of alumni supervisors assessed as excellent or good the academic preparation that alumni received from OSP regarding their work. Also, 92% of alumni supervisors assessed as excellent or good the alumni performance.	The alumni supervisors continue assessing as excellent or good the academic preparation received by students from OSP.	The OSP will continue promoting the academic excellence through continuous improvement.

## **Standard #4 Measurement and Analysis of Student Learning and Performance**

### **a. Program Outcomes**

List outcomes, by accredited program. Many of the program outcomes should be used as part of a student learning assessment plan and be measurable.

The Office Systems Program's graduate will demonstrate effectively the following competencies:

1. Communication skills
2. Teamwork skills
3. Problem-solving and decision-making skills
4. Interpersonal relationships skills
5. Technological skills
6. Knowledge and skills in office procedures
7. Civic and ethical values
8. Logical and critical thinking skills
9. Knowledge of basic business principles in a global environment (marketing, finance, management, economics, statistics, accounting, and legal environment of business)

### **b. Performance Results**

Complete Table Standard 4 - Student Learning Results found under the Evidence File tab above. Provide three or four examples, reporting what you consider to be the most important data. It is not necessary to provide results for every process.

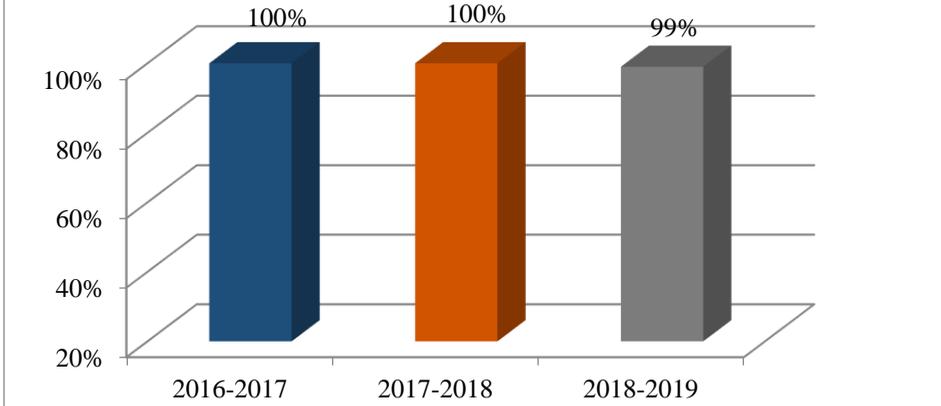

**Student Learning Results (Required for each accredited program, doctorate, masters, and baccalaureate)**

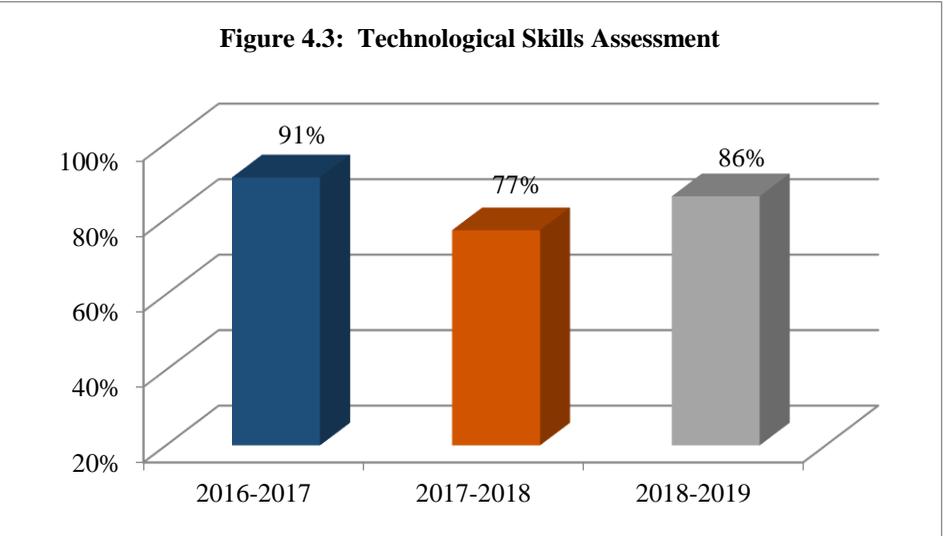

## Standard #4 Measurement and Analysis of Student Learning and Performance

**Use this table to supply data for Criterion 4.2.**

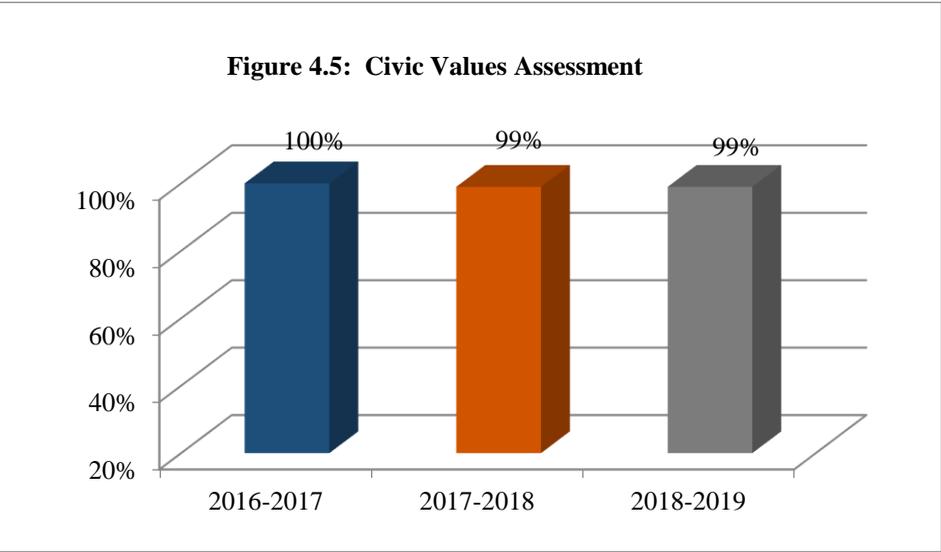

Performance Indicator	Definition
<b>1. Student Learning Results</b>	<p>A student learning outcome is one that measures a specific competency attainment. <i>Examples of a direct assessment (evidence) of student learning attainment that might be used include: capstone performance, third-party examination, faculty-designed examination, professional performance, licensure examination.</i> Add these to the description of the measurement instrument in column two:</p> <p>Direct - Assessing student performance by examining samples of student work</p> <p>Indirect - Assessing indicators other than student work such as getting feedback from the student or other persons who may provide relevant information.</p> <p>Formative – An assessment conducted during the student’s education.</p> <p>Summative – An assessment conducted at the end of the student’s education.</p> <p>Internal – An assessment instrument that was developed within the business unit.</p> <p>External – An assessment instrument that was developed outside the business unit.</p> <p>Comparative – Compare results between classes, between online and on ground classes, Between professors, between programs, between campuses, or compare to external results such as results from the U.S. Department of Education Research and Statistics, or results from a vendor providing comparable data.</p>

Assess Faculty job satisfaction regarding availability of financial resources for Faculty work	2013-2014, 2015-2016, and 2018-2019 OS Department Leadership Survey	<p>The OSP Faculty was satisfied or very satisfied with the availability of financial resources for their work in the OS Department as follows:</p> <p>2013-2014 – 72%</p> <p>2015-2016 – 71%</p> <p>2018-2019 – 50%</p>	<p>When comparing the 2015-2016 and 2018-2019 academic years, an increase of 3% in the very satisfy option, and a decrease of 24% in the satisfied alternative were observed. For 2018-2019, 50% indicated being moderately satisfied with the availability of financial resources at OSP.</p> <p>During the last years, the UPR system has experienced a decrease in the budget, which has resulted in a decrease of the UPR-Ponce budget. This has been reflected in the budget assigned to the OS Department for materials and equipment acquisition, traveling, and professional development.</p> <p>OSP budget for 2018-2019 academic year decreased 18%, when compared with 2017-2018. It is a result of the decrease of the budget at the systemic level due to the budgetary adjustments that have been requested by the Fiscal Supervisory Board of the Government of Puerto Rico.</p> <p>The OS Department Head has continued making necessary adjustments in the use of the operational budget to assure academic excellence and quality services.</p>	<p>Although the OSP budget decreased for 2018-2019 academic year, the OS Program has not been affected dramatically and has continued with its academic excellence and quality services. The majority of the OSP budget is used for personnel salaries and benefits. During the last two years, two professors have retired and these vacant have been covered with part time faculty.</p>	<p><b>Figure 5.5: Availability of Financial Resources at OSP</b></p> <table border="1"> <caption>Data for Figure 5.5: Availability of Financial Resources at OSP</caption> <thead> <tr> <th>Year</th> <th>Very Satisfied</th> <th>Satisfied</th> <th>Moderately Satisfied</th> </tr> </thead> <tbody> <tr> <td>2013-2014</td> <td>43%</td> <td>29%</td> <td></td> </tr> <tr> <td>2015-2016</td> <td>14%</td> <td>57%</td> <td></td> </tr> <tr> <td>2018-2019</td> <td>17%</td> <td>33%</td> <td>50%</td> </tr> </tbody> </table>	Year	Very Satisfied	Satisfied	Moderately Satisfied	2013-2014	43%	29%		2015-2016	14%	57%		2018-2019	17%	33%	50%

Assess Faculty participation in the academic advising process	Log of students advised	The number of students per advisor is at manageable levels.	The OSP Faculty is continuously involved in the students' academic advising each semester. For 2018-2019 second semester, the percentage of students advised decreased by 3% when comparing with the two previous semesters. Some of the causes identified for students not showing up in the academic counseling are: moving to another institution, transfer to another program in the institution, enroll in the Army, moving to another country, and others. OSP Faculty will be focused to increase this percentage.	The OS Department Head has continued promoting OSP Faculty participation in students' academic advising.  OSP will continue using strategies to increase student's participation in academic advising as disclosure of the process through flyers, social networks, e-mail, notification by Faculty, and follow up through telephone calls to those students who did not show up.	<p style="text-align: center;"><b>Table 5.1: OSP Students Advised by Faculty</b></p> <table border="1"> <thead> <tr> <th rowspan="2">Professor</th> <th colspan="2">2016-2017 Academic Year</th> <th colspan="2">2017-2018 Academic Year</th> <th colspan="2">2018-2019 Academic Year</th> </tr> <tr> <th>1<sup>st</sup>. ## Standard 6 – Educational and Business Process Management

### a. Curriculum

List any existing accredited degree programs/curricula that have been substantially revised since your last report and, for each program, attach a Table - Standard 6, Criterion 6.1.3 - Undergraduate CPC Coverage, found under the Evidence File tab above.

List any new degree programs that have been developed and, for each new program since your last report, attach a Table - Standard 6, Criterion 6.1.3 - Undergraduate CPC Coverage found under the Evidence File tab above.

**If a program has met the requirements of having graduates and being in existence for at least two years, please contact ACBSP accreditation staff and request that the "Adding New Programs to ACBSP Accreditation" Project be added for your business programs.**

**Note: If you have a new degree at a level currently accredited by ACBSP, then report information on: student enrollment, program objectives, instructional resources, facilities and equipment, admissions requirements, graduation statistics, core professional components (CPCs), and the outcomes assessment process to ACBSP. If the new degree is at a higher level than what is currently accredited, the school must complete a self-study to add the degree.**

If the new degree is at a higher level than what is currently accredited, the school must complete a self-study to add the degree. New degree programs, majors or emphases must be in effect for at least two years and have graduates before accreditation will be granted.

If the new program is determined to be substantially different from other programs offered by the institution, ACBSP, at its discretion, may direct a new visit to be conducted. If, as a result of a new program visit, ACBSP determines that the overall quality of an institution is being diminished, the institution may be scheduled for a complete reevaluation.

### b. List any accredited programs that have been terminated since your last report.

### c. Provide three or four examples of organizational performance results. Report what you consider to be the most important data, using Table 6.1 Standard 6 - Organizational Performance Results, found under the Evidence File tab above. It is not necessary to provide results for every process.

**Standard 6 - Educational and Business Process Management**

**Standard #6 - Organizational Performance Results, Table 6.1**

Complete the following table. Provide three or four examples, reporting what you consider to be the most important data.  
It is not necessary to provide results for every process.

**Table 6.1 Standard 6 - Organizational Performance Results**

<b>Organizational Effectiveness Results</b>	Organizational effectiveness results examine attainment of organizational goals. Each business unit must have a systematic reporting mechanism for each business program that charts enrollment patterns, student retention, student academic success, and other characteristics reflecting students' performance. Key indicators may include: graduation rates, enrollment, improvement in safety, hiring equity, increased use of web-based technologies, use of facilities by community organizations, contributions to the community, or partnerships, retention rates by program, and what you report to governing boards and administrative units.

It is a result of the decrease of the budget at the systemic level due to the budgetary adjustments that have been requested by the Fiscal Supervisory Board of the Government of Puerto Rico.</p> <p>There is a 14% increase in the expenditures per OSP student in 2018-2019 academic year when compared with 2016-2017. This may be due to the fact that there was an increase in the cost of tuition at a systemic level during the 2017-2018 academic year. The expenditures per OSP student has remained almost the same for the last two academic years.</p>	<p>The OS Department Head used allocated funds to acquire the necessary resources to comply with the Program's goals.</p> <p>Additional funds will be requested to satisfy extraordinary Program's needs as computers, educational materials, office supplies, traveling, and Faculty and staff professional development. The equipment and materials needed for the students' computer laboratories have been obtained through the technology quota paid by students each semester.</p>	<p><b>Figure 6.1</b></p> <p>Figure 6.1: OSP Budget</p> <table border="1"> <caption>Data for Figure 6.1: OSP Budget</caption> <thead> <tr> <th>Academic Year</th> <th>Budget Amount</th> </tr> </thead> <tbody> <tr> <td>2016-2017</td> <td>\$850,975</td> </tr> <tr> <td>2017-2018</td> <td>\$775,139</td> </tr> <tr> <td>2018-2019</td> <td>\$699,796</td> </tr> </tbody> </table>	Academic Year	Budget Amount	2016-2017	\$850,975	2017-2018	\$775,139	2018-2019	\$699,796

Admission quota established by the UPR-Ponce Administrative Board	Institutional Annual Data Profile prepared by UPR-Ponce Office of Planning and Institutional Research (OPIR)	<p>The number of freshman students enrolled decreased by 18% in 2018-2019 when compared with 2017-2018.</p> <p>The total enrollment in OSP decreased by 11% during 2018-2019 academic year when compared with 2017-2018.</p>	Factors such as atmospheric events, demographic changes, and situations at the institutional level have had an impact on enrollment changes. Also, some students have decided to continue studies in other academic programs at UPR Ponce or in other institutions.	The OSP Department Head appoints every two years the Orientation and Promotion Committee who develops activities to promote the Program as open houses and high school visits, in which the OSP Faculty and active students have been involved. During these academic years, the Committee has continued visiting the post-secondary institutions in the southern area. The members of the Committee coordinate the preparation of the OSP academic offerings brochures and promotional recruiting materials with the collaboration of the non-faculty personnel and students enrolled in SOFI 4030-Desktop Publishing course.	<p><b>Table 6.3: Freshman OSP Admission Quota and Students Enrolled</b></p> <table border="1"> <thead> <tr> <th>Academic Year</th> <th>Quota</th> <th>Freshman Students Enrolled</th> </tr> </thead> <tbody> <tr> <td>2016-2017</td> <td>75</td> <td>63</td> </tr> <tr> <td>2017-2018</td> <td>55</td> <td>49</td> </tr> <tr> <td>2018-2019</td> <td>50</td> <td>40</td> </tr> </tbody> </table> <p><b>Figure 6.2: Total OSP Enrollment</b></p> <table border="1"> <caption>Data for Figure 6.2: Total OSP Enrollment</caption> <thead> <tr> <th>Academic Year</th> <th>Total Enrollment</th> </tr> </thead> <tbody> <tr> <td>2016-2017</td> <td>228</td> </tr> <tr> <td>2017-2018</td> <td>183</td> </tr> <tr> <td>2018-2019</td> <td>162</td> </tr> </tbody> </table>	Academic Year	Quota	Freshman Students Enrolled	2016-2017	75	63	2017-2018	55	49	2018-2019	50	40	Academic Year	Total Enrollment	2016-2017	228	2017-2018	183	2018-2019	162

## Standard 6, Criterion 6.1.3

Table 6.9 presents the Common Professional Components for the OSP for 2014-2016 academic years in August 2014.

# Standard Six: Educational and Business Process Management - Table 6.3

### **Criterion 6.1.3 Undergraduate Common Professional Component (CPC)**

Programs that include a B.A. (with a business major), B.S. (with a business major), B.B.A., B.S.B.A., or objectives that imply general business preparation with or without a functional specialization must include coverage of the Common Professional Component (CPC) at the level prescribed by the ACBSP. The CPC as outlined below must be included in the content of the courses taught in the undergraduate programs of all accredited schools and programs. Each CPC area must receive a minimum coverage of two-thirds of a three (3) semester credit-hour course (or equivalent) or approximately 30 coverage hours.

**Directions for using table:** Enter your academic discipline and degree type on row 6. Replace the sample core courses with your core courses and update columns B - L with the number of coverage hours for each CPC area. The total columns will total using the the formulas.

**APPENDIX A: STANDARD #4, MEASUREMENT AND ANALYSIS OF STUDENT LEARNING AND PERFORMANCE**

The University of Puerto Rico at the systemic level evaluated the development of a test to be used instead of the MFT to assess students' knowledge in ten areas of common knowledge. During 2012-2013, the Accreditation Coordinators of the Office Systems and Administration Office Programs of the University of Puerto Rico System developed the Comprehensive Systemic Test for the Administration/Office Systems Programs students with the purpose of using it as an external assessment instrument. It also permits to benchmark among the units of the University of Puerto Rico. The areas included in the test are management, legal aspects, accounting, economics, statistics, ethics, finance, globalization, marketing, and technology. During 2015-2016, the Accreditation Coordinators revised the test. Fifteen questions were included for each area. The revised Comprehensive Systemic Test has been administered in six instances by the UPR units, including UPR-Ponce. The OSP Accreditation Committee has continued administering the in-house Comprehensive Systemic Test to graduating students enrolled in the capstone course SOFI 4985 – Internship and Seminar.

**Table A-1: Comprehensive Systemic Test Mean by Area – Office Systems Bachelor Program, UPR-Ponce**

Period	Administration	Legal Aspects	Accounting	Economics	Statistics	Ethics	Finance	Globalization	Marketing	Technology	Mean
Academic Year 2016-2017	11	12	10	7	7	10	6	12	6	10	9.1
Academic Year 2017-2018	11	11	9	6	7	10	6	10	6	9	8.5
Academic Year 2018-2019	12	12	10	9	10	10	6	11	6	10	9.6
<b>Average</b>	<b>11</b>	<b>12</b>	<b>10</b>	<b>7</b>	<b>8</b>	<b>10</b>	<b>6</b>	<b>11</b>	<b>6</b>	<b>10</b>	<b>9</b>

Results revealed that the mean for the last three academic years was 9 of 15 (60%). The areas with a mean score of 10 or less were accounting, economics, statistics, ethics, finance, marketing, and technology. When determining the use of results, the OSP Faculty decided that it is necessary to reinforce the acquisition of basic business knowledge in courses as SOFI 3016- Basic Concepts of Accounting for the Office Professional, MERC 3118-Basic Concepts of Marketing for Office Professionals, FINA 3108- Basic Concepts of Finance for Office Professionals, ECON 3008-Basic Concepts of Economics for Office Professionals, and STAT 3106- Basic Concepts of Statistics for Office Professionals. Another decision taken as a result of this assessment was that the areas of ethics, legal aspects, and management will also be reinforced in SOFI 3016 – Basic Concepts of Accounting for the Office Professional. In this course students make a case discussion analysis about ethics in accounting, complete practical exercises, take theory quizzes, complete a practice set, and take theory and practical tests. Students enrolled in SOFI 3016 must take a Comprehensive Theory Test. Faculty also decided to continue the reinforcement of ethics, legal aspects, and management in SOFI 4038-Office Administration. Some of the strategies identified were that students will make a critical analysis of articles about employee compensation and recognition, leadership, motivation, problem solving, and cultural diversity in a business environment, among others. Students also research about fringe benefits, organizational conflicts, and working conditions, among others.

After an analysis of the data for 2016-2018 academic years, a review sessions for the subjects included in the comprehensive test were given in SOFI 4985-Internship and Seminar to internship students. As a result, an increase of 14% was obtained in the percentage of students who attained the learning goal for 2018-2019 academic year.

The results of the comprehensive test develop at the systemic level will be analyzed by items in each common professional component (administration, legal aspects, accounting, economics, statistics, ethics, finance, globalization, marketing, and/or technology). The subjects in which students are obtaining lower results will be identified to continue reinforcing the teaching and learning process in courses such as MERC 3118, FINA 3108, ECON 3008, ESTA 3106, SOFI 3016, SOFI 3210, SOFI 3505, SOFI 4038, SOFI 4005, SOFI 4040, and SOFI 4985.

Tables A-2 through A-4 shows a comparison of the means of the Office System Program Comprehensive Systemic Test at UPR-Ponce with the mean obtained at systemic level. The OSP at UPR-Ponce was above the UPR institutional overall average mean for 2016-2017 and 2018-2019 academic years when compared with other units.
